DEDICATION

During the past ten years Mr. Noel Azzawi has served as secretary to the Dean of the University, and it is a pleasure for the Graduating Class to pause at this time to pay deserving tribute for his decade of unobtrusive service to our school. From the vantage point of his office he has been a daily witness to the rapid growth and scholastic achievement of the University. Endowed with a friendly personality, a warm sense of humor, and a ready smile, he has emerged over the years as one of the most popular figures on the campus. His conscientious approach to the manifold obligations of his work and his signal devotion to duty have won the esteem and gratitude of the Administration, Faculty and Student Body. We believe that we are speaking for a generation of Al-Hikma students when we express our heartfelt appreciation, in a special way, for his personal interest in all the aspects of our student days. On the occasion of this notable milestone along the journey of his life, the Class of 1968 is indeed privileged to dedicate the 1968 issue of Al-Hikma to

Mr. NOEL AZZAWI

Mr. Noel AZZAWI, Secretary to Academic Vice-President

Rev. Joseph L. RYAN, S.J., Academic Vice-President

Dear Graduates,

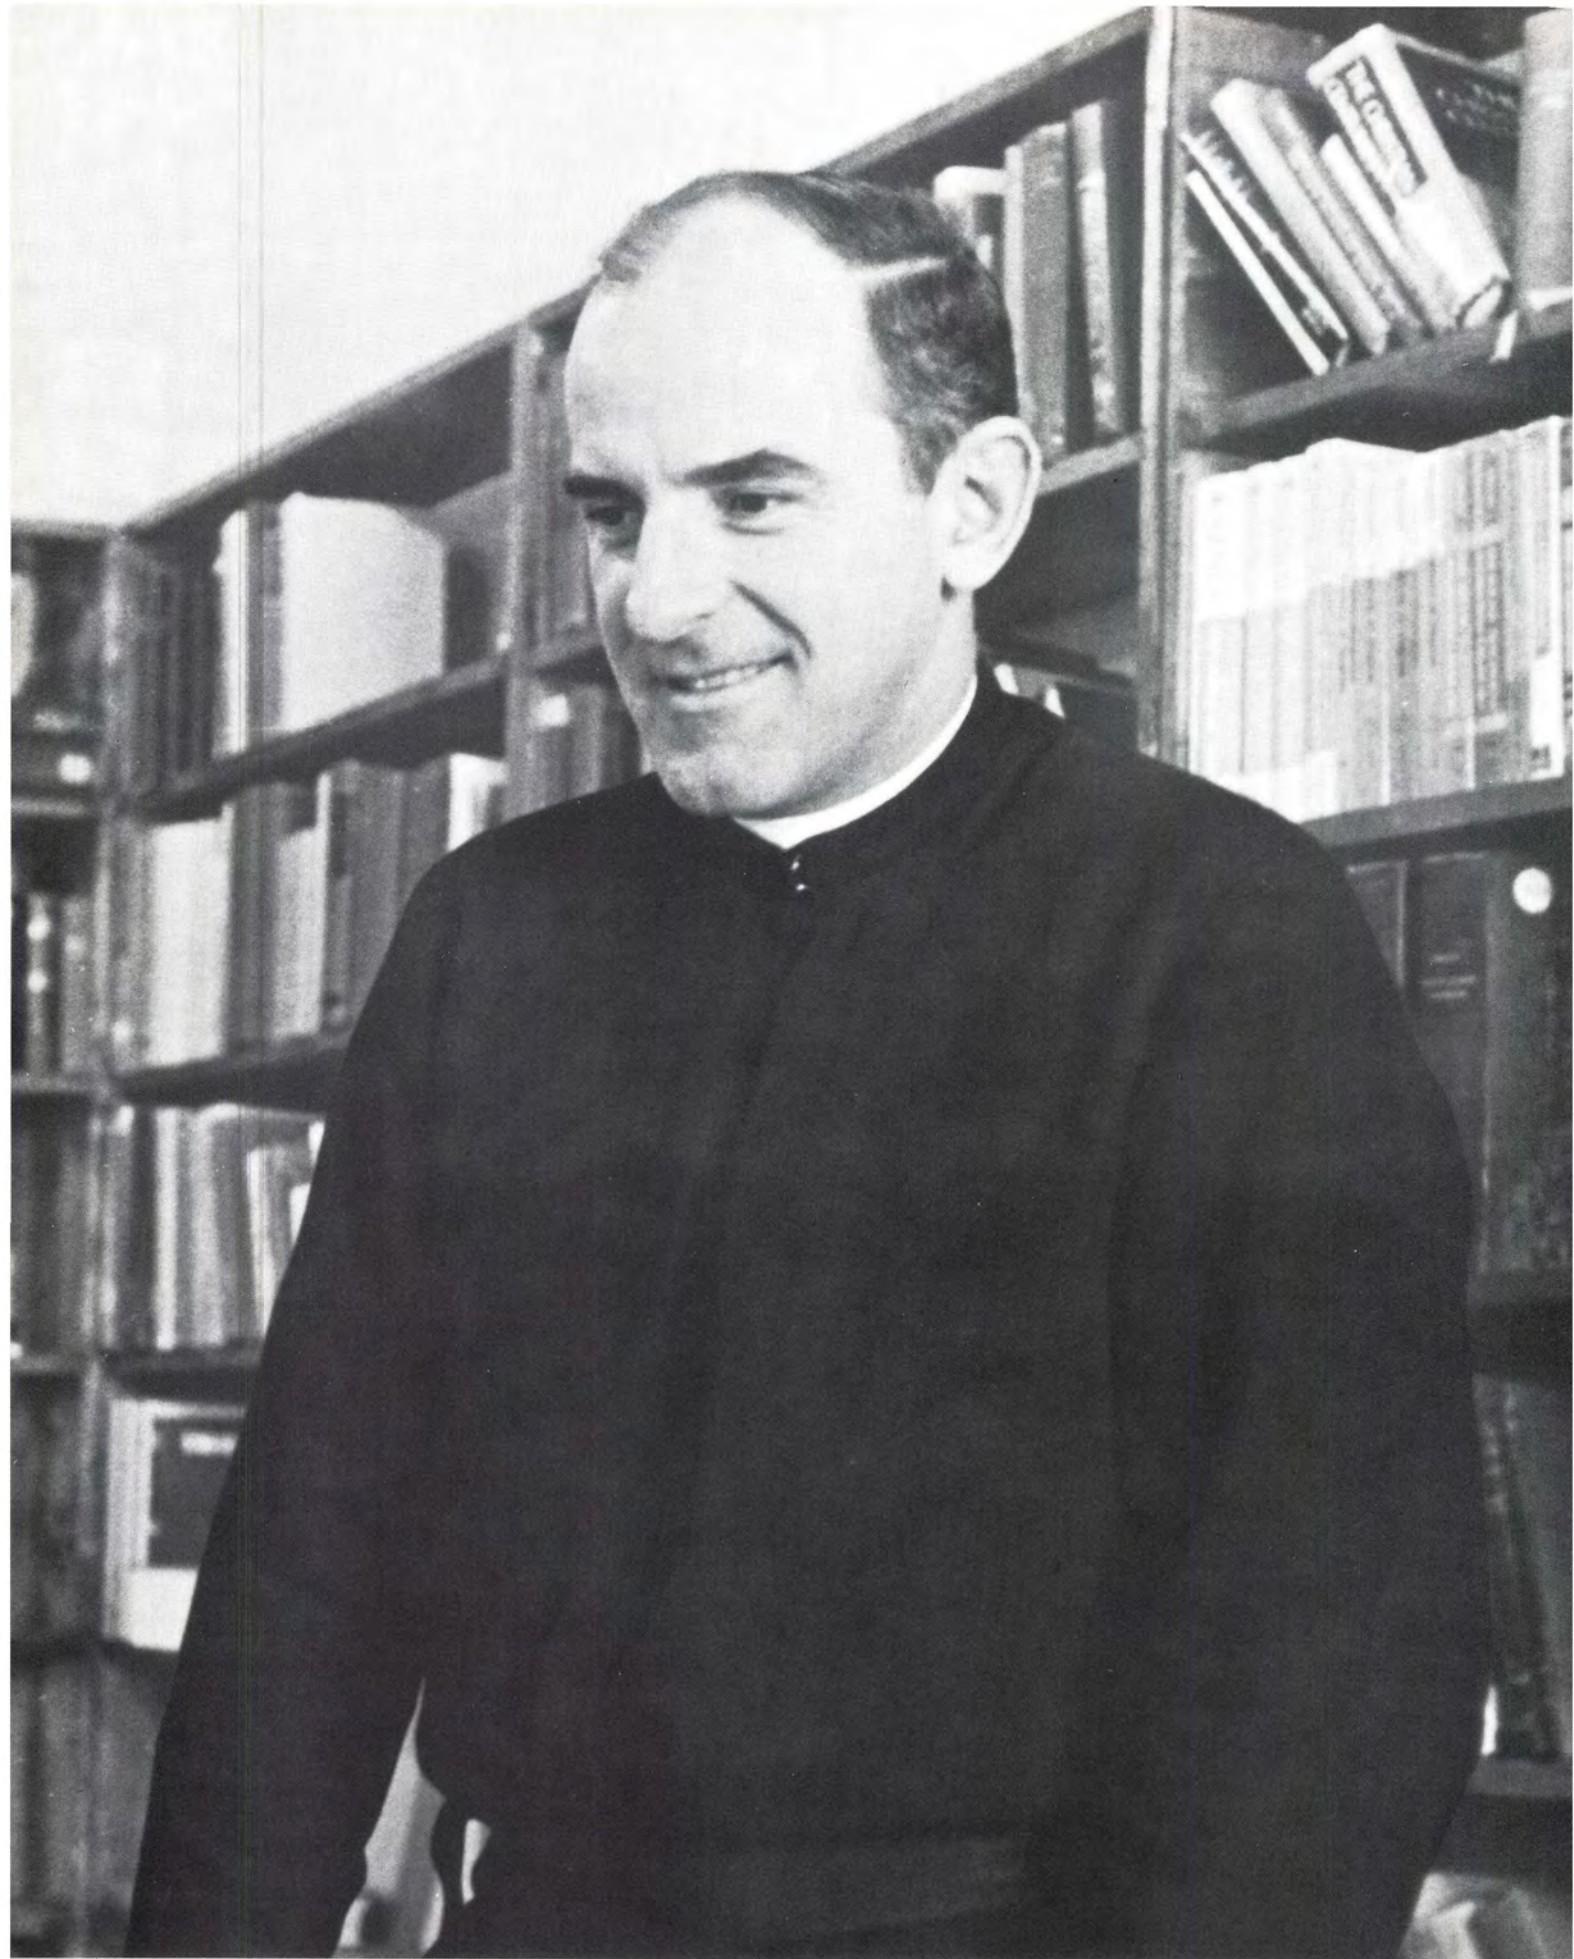

As we bid goodbye to you, it is our hope that some of you will devote your lives to teaching. For by teaching you can share your knowledge with many others and help and inspire the young in their struggle to grow.

But in a wider sense you can truly teach even if you are not in a classroom. An engineer or a business manager, for example, can aid those who work under him to learn and understand many things. What are those things? Not only the technical training of a job, but also order and steadiness in work, a habit of judging not by emotions but by reason, and above all a deep respect for one's own dignity and the dignity of others.

Because of your talent, background and training you have much to give — more, I am sure, than you realize.

May each one of you by your teaching enrich the lives of many.

B.Sc. in Business Administration

Samir was a spirited and competent member of the class who had a flair for poetry. He was a member of SAM, and a strong supporter of debates. Volleyball and football were his main sports, although mention a picnic or a swim, and he went right along. He would like to study for a master's degree in economics.

سمير جميل شمعان SAMIR JAMIL SHAMAN

Baghdad, Iraq

B.Sc. in Civil Engineering

A man with a mind for details Samir came through all courses with flying colors. He was a most prominent sodalist, and a good debater. He was also a member of the senior engineering society. Swimming was his best sport. If conditions are favorable he will study to become a highway engineer.

SAMIR YOUSIF YASSI

سمير يوسف يسي

Baghdad, Iraq

B.Sc. in Civil Engineering

Samir is a man who believes one should deliver his words not by number, but by weight. He produced an enviable hydraulics research project, and was a member of the senior engineering society. Photography, painting and sculpturing were his hobbies; tennis and football his best sports. After a few years of work he plans studies in architecture.

SHAMUN ELIA AWDISHU شمعون ايليا اوديشو

Baghdad, Iraq

B.Sc. in Business Administration

Pleasant and affable at all times Shamun will be missed from campus. He was a good debater, and a faithful member of SAM. Intramural sports of football, volleyball, tennis and ping-pong kept him trim; music, movies and picnics relaxed him. He wants to study for a master's degree in economic development.

AL-HIKMA UNIVERSITY

SHIHAB AL-AWQATI

شهاب الاوقاتي

Baghdad, Iraq

B.Sc. in Civil Engineering

An industrious and determined student Shihab conquered every course. He was devoted to intramural basketball. For a change of pace from engineering he enjoyed a good book while listening to music. He would like graduate studies in structural design.

SIRPOOHIE VARJABEDIAN

Baghdad, Iraq

B.Sc. in Civil Engineering

Resourceful Sirpoohie joins the ranks of Al-Hikma's lady engineers. She had great success on her summer project, and in the senior engineering society. When not drawing, reading or listening to music, she swam or played volleyball. She hopes to do graduate studies in structures.

سربوهی فارجابیدیان

SISTER DOMINIQUE CARACOSHI

Baghdad, Iraq

A.B. in English

Indomitable is the word for Sister Dominique. She overcame all obstacles to win her degree. She is the first Chaldean Sister to graduate from Al-Hikma. She was good in debate and in the choir. All types of literature interested her. If circumstances permit she would like to do graduate studies in education.

الاخت دومينيك قرقاشي

CLASS OF 1968

SUDHA KOHLI

Baghdad, Iraq

A.B. in English

From the beginning Sudha proved herself a leader not only in class, but in fashion, and travel. She sought truth through knowledge, "Ad veritatem per scientiam", and will continue to do so. Whatever the event — a debate, an athletic contest, a dance, scrabble — she has a habit of excelling. She hopes to study the Bard of Avon in his homeland.

سدهی کھلی

SUZI YOUSIF FARAGE سوزي يوسف فرج

Baghdad, Iraq

B.Sc. in Business Administration

Artistic Suzi was always pleasant and painted with the best. Whenever SAM had an excursion project Suzi would be there. Her quiet demure presence will be missed from campus. She lists swimming as her favorite sport. She is undecided about future studies before joining Baghdad's business interests.

AL-HIKMA UNIVERSITY

USAM JAMIL ZAYYOUNA عصام جميل زيونه

Baghdad, Iraq

B.Sc. in Business Administration

Usam has developed into a masterful weaver of words. He is a longtime member of the editorial board of HUT (Hikma University Tribune). When not on a field trip with SAM, he could be found reading the best. He selects journalism for his life's work.

VIVIEN SHINA

Baghdad, Iraq

B.Sc. in Business Administration

As a class leader Vivien led a vigorous and versatile life at Al-Hikma. As a member of SAM she participated in all events. She played ping-pong and tennis well. When not reading or listening to music she studied languages or knitted. When circumstances permit she will study economics abroad.

WADI' YUSUF NAFSU وديع يوسف نفسو

Baghdad, Iraq

B.Sc. in Business Administration

Wadi' was one of the most musical classmates. He played the guitar and sang on demand. Next to basketball or swimming, he preferred dancing. Ask him about his stamp collection. He was a member of the sodality, and Christian club. His choice of graduate studies is economics abroad.

CLASS OF 1968

WALID SAID NAZHAT AL-QAISI

وليد سعيد نزهت القيسى

Baghdad, Iraq

B.Sc. in Business Administration

Witty Walid puts faith in the maxim "hard work never killed anyone." He was a full member of SAM, and enjoyed the business seminar. Ping-pong and tennis kept him trim. Anything electrical or connected with aviation fascinated him. He intends to travel to the UK for a master's degree in insurance.

YVETTE ATRAQJI

ياڤيت اطّرقجي

Baghdad, Iraq

B.Sc. in Civil Engineering

Attractive Yvette is a teacher's delight. She understands from the start and probes the depths. She has been a class leader in every year at Al-Hikma. She found time for tennis, ping-pong, volleyball, music, and drawing. She hasn't decided where, but she is bound to excel in graduate studies.

يُفْتَن لَوِي YVETTE LAWI

Baghdad, Iraq

B.Sc. in Business Administration

Quiet and demure Yvette made up by charming presence what was not expressed in words. She was a member of SAM, and of the debating society. She often made the dean's list. Outdoor activities include: swimming, tennis, ping-pong, and volleyball; for indoors she lists reading, sewing, and stamp collecting. She is ready for work in industry in Baghdad.

Being soothed by the Muse of Music

Rev. EUGENE P. BURNS, S.J., Moderator

Mr. John Dodig on Guitar

Music, one of the most attractive and popular of the fine arts, has always enjoyed an honored place in the curriculum of well established universities. Through modern communications media the benefits of good music are being brought to countless devotees of song and deathless harmonies in today's world. With a view to give added depth to this dimension of enriching sound the music club meets at regular intervals. Carefully chosen recordings, preceded by a short commentary on the life of the author and the nature of the work, are followed, when time permits, by a discussion of the music played.

The annual program comprises topics ranging from folk music of various nations and ethnic groups, renaissance compositions, and early Italian masters

through the steadily developing symphonic literature of the eighteenth and nineteenth centuries. The objective of the club is to introduce to its members as much excellent music as is feasible within the limits of the school year. Thus music is glimpsed as an art that flowers out of the ideals and aspirations that have inspired men and women of every day and age and those that move of all of us today.

DEBATING SOCIETY

The Al-Hikma Debating Society is one of the oldest student activities in the University. As such, it has had a long and varied career, sometimes thriving, at other times barely surviving. But always it has retained, somehow, its appeal to a broad range of students interested in acquiring and practicing the art of thinking and speaking before an intelligent audience. Debates this year were held in Arabic and English, with women students, as well as men, contributing their share of talent and charm to the forensic proceedings.

Mr. Dodig enlivens rehearsals

Rev. D. McDONALD, S.J.
Moderator and Conductor

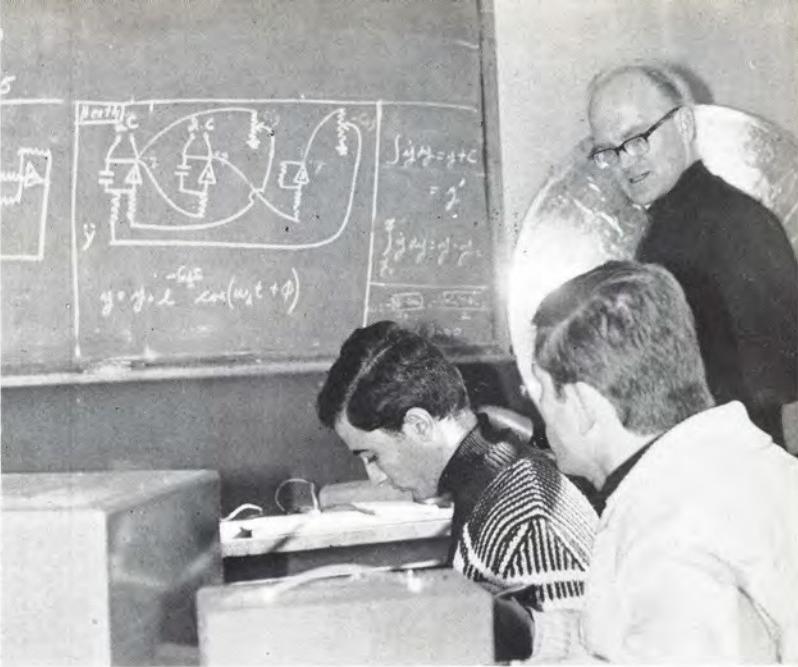

The Al-Hikma Choir, under the direction of Fr. Douglas McDonald and Mr. John Dodig, is an activity for students who enjoy singing and who are willing to attend weekly rehearsals of songs and hymns, in English and Arabic. Besides providing support to the singing at the weekly University Mass, the choir has prepared special programs for Christmas, Easter, and other occasions.

SCIENCE CLUB

The Science Club is designed for the leading students of Junior Engineering interested in later graduate studies. The requirements for the Club are a special interest in science and a high scholastic average. The Club was directed by Father W. Larkin, assisted by Mr. Mumtaz Aziz and Mr. Noel Emmanuel. The ten members learned how to program and run our analog computers for the solution of differential equations. In the second semester they will move on to digital computers and transistor circuits.

CAMERA CLUB

The Camera Club, with Issa Tuma as President, and Azhar Shemdin, Secretary, enjoyed a very active first semester. Numerous photos for the Yearbook and for artistic display were contributed by club members. The fundamentals of developing and printing were stressed for beginners. Issa Tuma, who has accomplished much in color photography willingly shared his knowledge and expertise with other members who were most enthusiastic in their pursuit of the world of color.

Enduring as Swedish Steel

From mountainous Bergslagen and desolate Lapland, Swedish iron ore travels down the sea lanes to the blast furnaces of the world. But much of the purest ore is reserved for Sweden's own famous steelmakers' such as Fagersta, Uddeholm and Sandvik. Here the ore is transformed into pedigreed Swedish Steel — prized around the world for endurance.

Swedish business machines are also prized around the world for their

enduring quality. You will find them everywhere. And the odds are that the Swedish business machines you see most often are from Facit of Sweden.

This is because Facit of Sweden is one of the world's leading manufacturers of business machines, with exports to 130 countries — a truly international company, permanently on duty wherever you live.

If you were speaking here tomorrow

you'd wear a Rolex

When the General Assembly of the United Nations meets in New York, the best watch in the world is there.

Its large, classic shape is carved out of a solid block of gold.

Inside the solid, pressure-proof walls of its Oyster case is a self-winding, officially certified chronometer movement.

Because so much of the work is done by hand, it takes us more than a year to build a Rolex.

Many of the world's heads of state feel it was time well spent.

The Rolex they wear is the Day-Date.

Short cuts for engineers

Chemicals and know-how from ICI save time and labour in many engineering processes. To degrease metal components (everything from car bodies to hypodermic needles), engineers use ICI trichloroethylene, a chlorinated solvent. Now ICI scientists have modified this chemical so as to solve another problem: how to dry metal quickly, after electro-plating, to a bright finish. 'Trisec' D, used in ICI drying plants, sweeps water off the surface of such articles as cigarette lighters and powder compacts, leaving them dry and completely stain-free without any hand-polishing.

ICI's production of chlorine derivatives is only one facet of its manufacturing programme. From more than 100 factories throughout Great Britain come 12,000 chemical and allied products, ranging from medicines and dyestuffs to plastics and petrochemicals, from paints and weedkillers to fertilizers and synthetic fibres. And ICI's marketing organization brings these products to almost every country in the world.

It's easy to choose an airline once you've got the word. **The word is experience.**

More people fly with us than with any other international airline.

And many of these travellers can't tell you exactly why they choose Pan Am, trip after trip after trip.

Yet they know instinctively that they have done the right thing. It gives them a good feeling when they plan their trip. When they board their Pan Am Jet Clipper (R). When they

enjoy splendid in-flight service and superb cuisine by Maxim's of Paris. When they fly serenely and quietly at speeds that would have seemed incredible when we began flying 38 years ago.

And this good feeling can be yours.

Any time you choose to fly the very best there is.

نحو محاتنا و نحو محاتنا الاعزاء :

من وإلى ومع ولر : أربعة حروف جر تلخص ما أودّ التعبير عنه في كلمتي هذه الوداعية.
من : إنكم تخرجون من جامعتنا هذه ، وفي هذا ما يوسعنا ويسرتنا في آن واحد . نعم ، يوسعنا
خروجكم من عائلة الحكمة حيث قد ثبتت العلاقات الودية العزيزة بيننا وبينكم . مع ذلك ، يسرتنا
خروجكم من جامعتنا هذه ، إذ إنه لا بد لكم من التقدّم في حياتكم الشخصية والبناء على الأسس
التي قد وضعتموها وإيانا في أثناء السنوات الأربع المنصرمة .

إلى : تخرجون من جامعة الحكمة، وفي الوقت نفسه تخرجون إلى عالم وحياة أكبر وأوسع من عائلتنا الجامعية الصغيرة. وفي هذا ما يزيدنا فخرًا وثقةً وأملاً، لأننا على يقين من أنكم سوف تتحسنون الواجبات والمسؤوليات الهمة التي لا بد لكم من مواجهتها خارج الجامعة .

مع : تخرجون من الجامعة الى العالم مع شهاداتكم ومع كل ما تملئه هذه الشهادات من العلم والخبرة والكفاءة الفنية والحكمة الخالدة والتقدير للقيم والمشاعر والاماني البشرية . أجل ، تخرجون مع كل ما اجتهدتم في الحصول عليه من ثمار التدريس والدراسة ، والتشريف والثقافة ، في قاعات الدرس وخارجها في بيتهن عائلتنا الجامعية .

ل : تخرجون من الجامعة الى العالم مع كنوز علمكم وثقافتكم ، وخروجكم هذا هو لكم ولغيركم .
لفائدةكم ولفائدة غيركم . فعليكم اذن أن تترجموا الحق والحكمة والخبرة التي قد حصلتم عليها في
جامعتنا الى ما يؤول اليكم بحياة شخصية فاضلة سعيدة والى مجتمعكم ووطنكم بحياة خيرة مشرمة .
أخرجوا اذن ، واعملوا وابنوا لأنفسكم ولاخوانكم ولوطنكم ! أخرجوا ، ومعكم دعاؤنا وصلاتنا
وحبنا الدائم ! أخرجوا ، وليكن الله في عونكم !
